# Sliding Gate

- Able to move gates up to 2000KG
- Release Key function
- Reliable and Solid
- Intelligent and User-friendly

## Dimension

## Specifications

### SL-2500 Sliding Gate motor (oil-bath, waterproof)

Power supply : 230V/ 120V AC  
 Output Torque : 45NM  
 Maximum gate weight : 2,000kg  
 Motor Speed : 1,400rpm  
 Gate Speed : 12m/min  
 Limited switch : magnetic/mechanical (NC/NO)  
 Noise : <56dB  
 Working Temperature : -45°C ~ +65°C  
 Protection Class : IP44  
 Dimension : 330(H) x 272(W)

### SL-3000 Sliding Gate motor (grease, waterproof)

Power : 370W  
 Horse Power : 2/3  
 Maximum Weight of gate : 1000kg  
 Motor Speed : 1400 r/min  
 Output Torque : 18N - m (It can be adjusted)  
 Gate Moving Speed : 12m / min  
 Limit Switch : Spring limit switch / Magnetic limit switch  
 Noise : <56dB  
 Environmental Temperature : -35°C ~ +65°C  
 Dimension : 326(H) x 270(W)
